CAREER OBJECTIVE

Passionate and self-motivated Junior MERN Stack Developer seeking a frontend or full-stack developer role where I can contribute my hands-on experience building modern, responsive web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in reusable component design, REST API integration, and responsive UI implementation. Eager to grow within a collaborative team, take on real-world challenges, and deliver clean, scalable web solutions.

PROJECTS

Doctor Appointment System

2025

- **Completed** full-stack MERN doctor appointment booking system with separate patient and doctor portals
- Built responsive UI using React.js with reusable component architecture and dynamic state management
- Integrated backend REST APIs with Express.js and MongoDB for appointment scheduling and user management

Webora – Digital Agency Website [Live](#)

2025

- Designed and developed a professional digital agency website showcasing services and client solutions
- Implemented **interactive animations**, smooth landing page transitions, and responsive multi-page layout with React.js
- Built fully functional **contact form** with form validation and seamless user experience

Nayan Dev – Personal Portfolio [Live](#)

2025

- Created a professional portfolio website showcasing projects, skills, and development experience
- Designed responsive, modern UI with clean navigation and project showcase with live links
- Built with React.js and Tailwind CSS demonstrating frontend development expertise
